PROFESSIONAL SUMMARY

I am a passionate and creative individual seeking a short-term intern-level job, ideally working with a team of dedicated and like-minded people. Throughout my time at University, I have developed strong communication, problem-solving, and teamwork skills, which will prove useful in a work environment, as collaboration and adaptability are key. I am enthusiastic about joining a workplace to enhance my skills in animation and further develop my understanding of team collaboration in an industry setting.

AREAS OF EXPERTISE

Through my time at University, my skills in conceptualisation and narrative building have been the strongest elements of my work. As a creative, I put a lot of thought behind the reason for a projects existence and what it is trying to say. I find that my ability to collect multiple resources greatly benefits the story telling elements of animated projects.

Expert

I have focused on skills related mainly to 2D animation productions. Through this, I find my greatest strength to be concept art. The earlier phases of animation production allows for more creative freedom, and with someone with many ideas, and a passion for creative exploration, developing different iterations and pulling from various inspirations outside of just the imagination is an enjoyable process that I am passionate about.

Expert

EMPLOYMENT HISTORY

Jun 2025 — Present

Supervisor, Wooolworths — Castle Hill, NSW

As a supervisor, I shared responsibility for overseeing day-to-day tasks, coordinating team members, and maintaining a high level of organisation across the department to ensure positive customer experiences.

- Worked collaboratively with a team to efficiently complete daily tasks, including assisting with management tasks.
- Maintained a well-kept, clean work environment across my department.
- Assisted in training new employees on standard protocols and work routines.
- Led routines and took charge of the department.
- Delegated tasks and ensured employees completed duties efficiently and to a high standard.
- Helped meet store targets through effective team coordination and customer service.

EDUCATION

Feb 2025 — Present

Bachelor in Animation, SAE University — Sydney, NSW

- Studying animation principles, character design, visual development, and creative production.
- Investigating the political and social influences and implications of media.
- Developing a strong understanding of digital software, such as Toon Boom, Maya and Premiere Pro.
- Enhancing skills in 2D and 3D animation, visual storytelling, and digital production.
- Engaging with industry-standard production timelines.
- Collaborating with teams, both within and outside of my discipline, and taking on various roles and responsibilities.
- Assuming leadership in group settings, delegating tasks, and providing feedback with strong communication skills.
- On-set experience with film crew, fostering an understanding of production behind the scenes.
- Researching historical and systemic contexts, furthering my ability to reference, cite, and source information relevant to projects.
- Meeting deadlines, developing time management skills and adaptability.
